Stainless design.
Stellar performance.
Superior value.

Arctic Air® Refrigeration Products Catalog
including Specifications and Dimensional Line Drawings
TO OUR ARCTIC AIR® CUSTOMERS

For over 20 years Arctic Air has been a trusted brand in the U. S. commercial refrigeration market. We have strived year after year to provide a quality product at economical prices to our customers. In addition, as a family owned American company, it is our priority to maintain the high standard of customer service and support to our customers that they deserve and have come to expect. Finally, at Arctic Air it is our ongoing goal to maintain our respected standing in the commercial refrigeration industry by continuing to focus on product quality improvements while adding newly developed product offerings and continuing to grow with our customers.

Thank you again for your continued support.

Sincerely,

Walt Broich, Jr
President

WARRANTY SERVICE

If warranty service is required, please contact our warranty line directly at 1-855-431-5558. Information required at time of call is model, serial number, and batch number from sticker inside or on back of the unit. Also required will be name, address, contact info, and description of problem. Arctic Air Warranty Department will take all information and will get a local service agent dispatched as soon as possible. For complete warranty information see warranty page on back.

ARCTIC AIR RETURN POLICY

Arctic Air will only accept product returns on product that is in original, unopened package and was not shipped more than 30 days prior to return. If product is in original, unopened carton, then we will accept returns to our MN warehouse. Returns are accepted with a 15% restocking fee. The outbound and return freight would be paid by party returning the product. Credit will be given upon confirmation and inspection of returned products and they are determined to be in proper undamaged and unopened condition.

• Electronic thermostat with external digital LED display for accurate control and easy reading.
• Interior cabinet is bright white aluminum liner with full stainless steel floor with coved corners.
• Three adjustable, heavy-duty epoxy coated wire shelves.
• Self-contained capillary tube system using environmentally friendly CFC free refrigerant (R404A in freezers and R134A in refrigerators).
• Exterior cabinet construction consists of full stainless steel front and sides.
• Condensate heating element built into condensate pan for efficient evaporation of excess water.
• Bottom mounted compressor for more efficient operation in coolest area of the kitchen.
• Front accessible, bottom mounted condensing unit is mounted on slide out rack for easy maintenance.
• Easy to mount casters (two lockable) are standard with all units.
• Self-closing doors that remain open at 90 degrees.
• Magnetic door gasket is removable and replaceable without tools.
• Field reversible, lockable door with foamed-in-place recessed handle.
• Larger fan motors and blades for more efficient air flow ensuring faster recovery times.

COMMERCIAL FREEZERS & REFRIGERATORS
Refrigerated Chef Bases

- Exterior cabinet construction consists of full stainless front, sides and top.
- Self-contained capillary tube system using environmentally friendly CFC free refrigerant.
- Easy to mount casters (two lockable) are standard with all units.
- Each telescoping cartridge drawer system is equipped with magnetic gaskets that are removable for cleaning.
- Stainless steel drawer facings, linings and frames.
- Electronic thermostat with external digital LED display for accurate control and easy reading.
- Front accessible condensing unit for easy cleaning and maintenance.
- Top comes with standard marine edge on all sides.
- Top is insulated to eliminate heat transfer to interior of cabinet.
- Front breathing.
- Tested to NSF Standard 7 requirements for open food storage.
- Full one year parts, labor warranty and 5 year compressor warranty included.

Recommended Operating Conditions
- Installation of a heat shield is recommended for optimum performance (supplied by others).
- Counter top cooking equipment should be used in conjunction with the manufacturer supplied legs.
- Minimum clearance of 4" required between bottom of cooking equipment heating element and unit top. Failure to provide clearance voids manufacturer warranty.

One year parts and labor

Arctic Air warrants, to the original purchaser, all of its new equipment to be free from defects in material or workmanship, under normal use and maintenance service, for a period of one (1) year from the date of original purchase or 15 months after shipment date from the manufacturer, whichever occurs first. Warranty coverage is limited to the repair and/or replacement, including labor charges, of defective parts and/or assemblies. The labor warranty shall include straight time labor charges and travel charges within 100 miles roundtrip. Warranty service must be arranged by calling 1-855-431-5558 for service in the United States and Canada. Warranty service coverage is not offered outside of the United States and Canada.

Additional four year compressor warranty

In addition to the one (1) year warranty stated above, Arctic Air warrants its compressor units to be free from defects in both material and workmanship under normal and proper use and maintenance service for a period of four (4) additional years from the date of original installation but not to exceed five (5) years and three (3) months after shipment from Arctic Air.

The four (4) year extended compressor warranty applies only to the compressor part itself and does not apply to any other parts, components, or labor charges involved in replacement of compressor.

*(Not applicable for ACP counter-top models)

Conditions

All service under this warranty, for either labor or parts, must be performed by a preferred service provider arranged by the Arctic Air warranty Center at 1-855-431-5558. Warranty claims should include model number of the unit, batch & serial number of the unit, and proof of purchase. Service coverage is limited to units located in the United States and Canada only.

Limitations and exclusive warranty

This parts and labor warranty is the sole and exclusive warranty remedy offered by Arctic Air. Arctic Air’s sole obligation under this warranty is limited to either repair or replacement of parts and is subject to the limitations listed below.

1. Arctic Air will bear no responsibility or liability for any equipment which has been misapplied, mishandled, misused, subjected to harsh chemical action, or external causes such as the use of extension cords, electrical power fluctuations, lack of proper maintenance, non-factory approved revisions or modifications, or equipment damaged by fire, flood, or other acts of God.

2. Arctic Air will bear no responsibility for consequential loss or damages such as, including but not limited to, economic loss, profit loss, personal injury, property damage, damage during transit, losses or damages arising from food or product spoilage claims.

3. Arctic Air shall bear no responsibility for parts or labor coverage for component failure or other damages resulting from improper usage, installation, or maintenance as described in the owner’s manual.

4. Exceptions to one (1) year part warranty other than additional four (4) year compressor warranty: Light bulbs and door gaskets are limited to 90 day warranty period.

5. Arctic Air equipment is intended for commercial use only and this warranty is void if the equipment is installed in other than commercial applications.

6. All other warranties, either express or implied, arising under law or equity or custom of the trade, including but not limited to, warranties or merchantability or fitness for a particular purpose are excluded. Arctic Air’s liability on any claim, including but not limited to negligence, shall not exceed the price of the equipment that gives rise to the claim.
